Subject: S/055/005 - BLM Status

Joelle,

This morning I spoke with Buzz Rakow of the BLM Hanksville Field Office (435) 542-3461 regarding the BLM status for Kip Cotner's small mine project called Crystal Gyp. The project disturbances was created with hand tools at a small outcrop along a wash. The project disturbance is very minimal and is essentially erased after the wash flows. The BLM is in agreement with the Division file being closed.

Please send a copy of this message to file S/055/005 and draft a file closure letter.

thank you,
tony
